

Empowering Every Learner

How Snapplify transformed education at Rose of Sharon Academy

Key Challenges

Before adopting Snapplify Engage, Rose of Sharon Academy encountered several roadblocks.

Textbooks Management

Finding materials tailored to both the CBC and Cambridge curricula was an ongoing struggle.

Integration Issues

Aligning digital tools with curriculum requirements proved challenging for teachers.

Inequitable Access

Many students lacked consistent access to resources at home, creating a digital divide.

Outdated Devices

Older school equipment using legacy systems caused compatibility problems with modern solutions.

The Snapplify Solution

To overcome these obstacles, Rose of Sharon Academy partnered with Snapplify, implementing the Engage Library and Reader app.

- ✓ **A Wealth of Educational Content:** Access to a vast library of high-quality, curriculum-aligned resources designed for CBC and Cambridge learning pathways.
- ✓ **Cross-Device Compatibility:** Snapplify's Reader app allowed students to access materials on a variety of devices, regardless of operating system.
- ✓ **Offline Access and Annotation Tools:** Students could download resources for offline use, ensuring learning continuity even without internet access.

Snapplify's alignment with global education goals, like promoting inclusive and equitable quality education, further reinforced its value to the academy's mission.

Transforming Learning at Rose of Sharon Academy

The impact of Snapplify Engage was transformative. Educators reported that teaching processes became more efficient, with easier access to curated resources. Students gained equitable opportunities to engage with interactive and relevant materials, fostering a more inclusive learning environment.

“With Snapplify, my students now have the tools they need to succeed, whether in the classroom or at home. It’s truly changed how we teach and learn.”

About Rose of Sharon

Rose of Sharon Academy, a leading institution celebrated for its dedication to high-quality education, faced a growing challenge: ensuring all students had equal access to modern digital learning tools. With a commitment to supporting diverse curricula, including the Competency-Based Curriculum (CBC) and Cambridge curricula, the academy needed a seamless way to integrate technology into everyday learning.
