

Moi Education Centre

Empowering Future-Ready Learners Through Digital Transformation

Key Challenges

Limited access to updated print textbooks and reference materials

Teachers are struggling to support learners outside classroom hours

The need for a secure and unified login system across digital platforms

Restricted library hours limit student study time

The Digital Solution

Moi Education Centre adopted a three-tier digital learning model:

✔ **Snapplify Digital Library**

A powerful online and offline library providing instant access to thousands of eBooks, study guides, and academic resources.

✔ **Microsoft 365 Integration**

All students log in securely using their Microsoft school accounts, enabling:

- Seamless, single sign-on access to learning platforms.

✔ **Book Buddy – AI Learning Companion**
A trusted AI tool that helps students

- Revise, test themselves, and understand their textbooks – without doing the work for them.
- Generate summaries, quizzes, and explanations directly from their prescribed books.

“Integrating Snapplify’s Digital Library, Book Buddy, and Microsoft login has transformed our learning environment. Students now have secure, 24/7 access to accurate content and AI support that deepens understanding. It’s a major step forward in creating a future-ready learning culture.”

**Principal
Moi Education Centre**

With Snapplify's Digital Library, Book Buddy, and Microsoft integration, Moi Education Centre has created a connected, inclusive, and future-ready digital learning environment. The initiative aligns with Kenya's Competency Based Education (CBE) and the school's vision of producing adaptable, tech-savvy learners ready for higher education and global opportunities.

Impact & Success

24/7 Access to Learning

Students can now read, revise, and test themselves anytime, anywhere.

Students Independent Learning

Book Buddy encourages active study habits and critical thinking with students.

Teacher Empowerment

Teachers recommend Book Buddy and digital library content, confident it aligns with the curriculum.

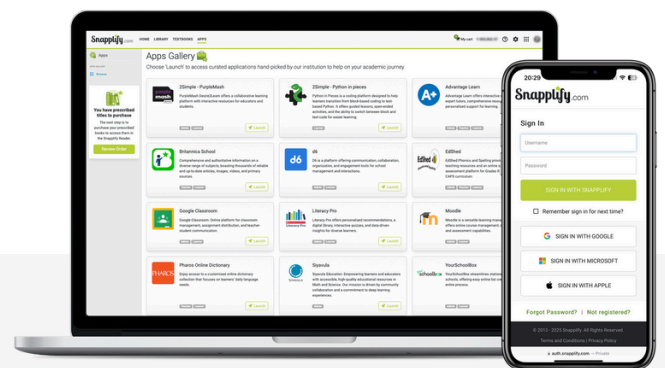

Future Skills

Students and teachers are building digital literacy and technological confidence.

Secure Access

Microsoft single sign-on makes logging in quick, safe, and reliable.

The decision to choose Snapplify

Moi Education Centre, one of Nairobi's leading schools, has always been at the forefront of educational innovation. To enhance teaching, learning, and access to resources, the school embarked on a digital transformation journey—adopting Snapplify's Digital Library, Book Buddy, and Microsoft 365 Integration for students.

About Moi Education Centre

Moi Education Centre is one of the leading private schools in Nairobi, renowned for its strong academic performance, holistic education approach, and commitment to excellence. The school offers a well-rounded curriculum that nurtures intellectual, social, and moral development. With modern facilities, dedicated teachers, and a focus on innovation, Moi Education Centre continues to provide a dynamic learning environment that prepares students to excel in national and global contexts.
